CONTENTS

Page no.

UNIT 1: INTRODUCTION TO ECOLOGY 11–32

History of Ecology 12
Contributions of Indian Workers in Ecology 13
Objectives of Study 14
Scope of Ecology 14
Approach to the Study of Ecology 16
Environmental Factors 17
Sub-Divisions of Ecology 18
Limiting Factors 20
Microclimate 29

UNIT 2 : POPULATIONS 33–90

Population 35
Characteristics of Population 36
Population Regulation 44
Life History Strategies 48
Amensalism 55
Models of Predator-Prey Dynamics 56
Ecological Interactions 61
Interspecific Interactions: 74

UNIT 3 : COMMUNITY 91–130

Characteristic of a Community 92
Ecological Succession (Community Dynamics) 100
Causes of Succession 101
Basic Types of Succession 101
General Process of Succession 103
Hydrosere or Hydrarch 106
Lithosere– A Xerosere on Rack 110
Ecosystem Development 113
Ecological Niche 119
Ecological Indicators 125
Adaptations and Ecotypes 126
Speciation 128
Ecological Indicators 129

UNIT 4 : ECOSYSTEM 131–195

Size of Ecosystem 132
Components of an Ecosystem 132
Major Ecosystems 138
Pond Ecosystem 142
Function of an Ecosystem 145

Productivity of Ecosystem 146
Food Chains in Ecosystems 147
Aquatic Ecosystems (Estuaries and Marine Ecosystem) 157
Marine Ecosystems 162
Terrestrial Ecosystems 167
Flow of Energy in Ecosystems 181

UNIT 5 : APPLIED ECOLOGY 196-233

Importance of Wild Life 197
Brief History of Indian Wild Life 198
Causes of Wild Life Depletion 199
Conservation Strategies 204
Wild Life Management 211
Protected Area Management Categories 212
Management of Endangrered Species 213
Special Projects for Endangered Species 220
Conservations of Biodiversity 225
Advantages of In-Situ Conservation: 232

UNIT 6 : ORIGIN OF LIFE 234-255

Introduction 234
Origin of Universe 234
Origin of Earth 235
Theories of Origin of Life 239
Modern Concept of Origin of Life 243
Origin of Eukaryotic Cells 254

UNIT 7 : EVOLUTIONARY THEORY 256-284

Lamarckism 256
Neo-Lamarckism 259
Darwinism 260
Evidences in Favour or Darwinism 265
Neo-Darwinism 267
Evidences of Evolution 268
Fossils 269
Geological Time Scale 273

UNIT 8 : SOURCE OF VARIATION 285-301

Nature of Variations 285
Other Types of Variations 288
Sources of Variation 292
Significance of Variation 299
Atavism 300

UNIT 9 : POPULATION GENETICS 302-340

Hardy-Weinberg Law 303
Natural Selection 316
Adaptive Resemblance 332
Role of Migration and Mutation in Changing Allele Frequencies 336

UNIT 10 : EVOLUTION OF MAN 341-362

Evolution of primates 341
Evolution of monkey and apes 343

Origin of Man 344
Evolution of Man 346
Human Fossils of Asia 351
Human Fossil of Africa 354
Human Fossil Europe 357

PRACTICAL PAPERS 363-388

Exercise No. 1 363
Exercise No. 2 367
Exercise No. 3 369
Exercise No. 4 371
Exercise No. 5 373
Exercise No. 6 375
Exercise No. 7 377
Exercise No. 8 379
Exercise No. 9 381
Exercise No. 10 383
Exercise No. 11 385
Exercise No. 12 387
